Assignment: Prior Art Report

Group:		**Commenter:**	

* Please read this rubric and the comments on the paper carefully. See me if you have any questions about how to address any of my feedback. Note that I have identified **examples** of different areas for improvement in Canvas, and that those comments do not indicate every instance of every error.	Very Poor	Below Average	Average	Above Average	Excellent
Structure					
Introduction • Begins with a clear statement of the document's purpose and context • Summarizes essential ideas clearly, concisely, and comprehensively, and is specific to project **Conclusion** • Clearly and briefly summarizes the purpose of the report and the main points that address that purpose • Conveys the significance of the research, its impact on the design process, and what comes next given that information **Sections** • Provide clear, concise headings • Include introductory paragraphs when there are two or more supporting paragraphs or subsections **Paragraphs** • Include effective topic sentences that present main ideas first • Provide *logical* cohesion: transitions help ideas flow together smoothly • Provide *structural* cohesion: sentence length and type vary sufficiently					
Organization					
Body • Order of main body ideas is easy to follow and presents a clear, logical line of development or argument • Organization of supporting ideas presents a logical hierarchy that addresses the purpose of the report • Subdivision of sections or subsections, when it occurs, results in at least two supporting subsections **Paragraphs** • Demonstrate unity: each paragraph supports one idea only • Presents supporting ideas in a logical order • Order of supporting ideas is easy to follow and presents a clear development or argument					
Content					
Overview of the Design Problem summarizes problem definition, customer needs, and target functionality clearly and concisely **Review of Prior Art: Exclusive of Patents** • Describes the procedures of the prior-art search clearly and concisely • Identifies an adequate number of examples of relevant prior art • Summarizes each instance of prior art clearly and in appropriate detail • Relates each instance of prior art adequately to the team's needs and/or requirements **Review of Prior Art: Patents** • Describes the procedures of the patent search clearly and concisely • Identifies an adequate number of examples of relevant patents • Summarizes each patent clearly and in appropriate detail • Relates each patent adequately to the team's needs and/or requirements **Impact of Prior Art Search** • Analyzes the research results and their effect on the team's thinking about the design problem and/or potential solutions • Presents a comprehensive discussion of the team's analysis, with appropriate supporting detail					

.

	Very Poor	Below Average	Average	Above Average	Excellent
Visual Aids and Appendixes					
• **Figures and Tables** are used as appropriate, and convey information clearly and concisely • **Figures and Tables** are numbered, labeled, referred to, and placed in text per specifications • **Equations** are formatted, labeled, and discussed properly • **Lists** are formatted for readability • **Appendixes** are referred to clearly in the text and formatted per specifications					
Mechanics, Grammar, and Style					
Formatting					

Summative comments *are available in Canvas*

COMPLETION ASSESSMENT
☐ **COMPLETE**: *Exceeds* Expectations ☐ **COMPLETE**: Meets *Basic* Expectations ☐ **INCOMPLETE**: *Does Not Meet Expectations*

COMPLETE ***Exceeds expectations***	Reports with this grade have only minor problems with content, organization, mechanics, or formatting. In industry, such a document would reflect well on your work as an engineer. Your manager would view it as evidence of your strengths as communicator and consider the document the caliber of work the company aims to share with outside clients.
COMPLETE ***Meets basic expectations***	Reports receiving this grade have several problems, and one or two may be significant, but the document has its strong points. In industry, your manager might accept such a document as is, or might send it back to you with some suggestions for revision before it could be shared with others. Such documents will not get you in trouble with a manager, but neither will they boost your standing. A client receiving such a document would likely not complain but they might be frustrated by parts of it and consider it minimally functional.
INCOMPLETE ***Does not meet expectations***	Reports receiving this grade do not meet basic standards and requirements for that document. They reflect major problems in multiple areas and, in some cases, suggest a lack of effort. In industry, a manager would consider such a document unacceptable, returning it to you for substantial rewriting. They might also express serious concerns about your overall performance on the basis of such work. Submitting a document such as this to a client would present a major problem.
